

COST Action 15107

Training School on Nanomaterials synthesis and advanced characterization techniques at nanometer and atomic scale

CSSNT-UPB, 4th – 7th June 2019

The **Cost Action 15107 Training School** will comprise a combined series of lectures and hands-on laboratories, over 4 days, on topics from carbon based nanomaterials synthesis to their applications and advanced characterization at nanometer and atomic scale. The invited speakers are leading academic and industry experts in the field.

Important Dates

Request for Grants –Deadline: **April 26th 2019**

Notice of acceptance: **May 2nd 2019**

Registration Deadline: **May 14th 2019**

Local Organizer:

Prof. Dr.rer.nat. Marius Enachescu
